CRAZED BY SMARLPON, -A terrible struggle with a smallpex patient, who was insane and frantie with paid, took place last week in the open country, about three miles from the Reading Pa., county almshouse. The man's name is Benedict Heileblyn. His face and body were literally covered with smallpox sores. His clothing was muldy and torn. The inmates of the farm houses barred their gates and doors in terror and prevented his coming among them. The community for miles around was in absolute terror. No one would venture near the man. He was tall and well built and seemed to be extremely powerful. He tore down several fences enclosing front yards to as to enter the houses. Finally a tramp, who gave his name as Henry Borden, came slong the road. Borden was also a powerful man. Fully aware of the ailment of the mad man, Borden seized for this additional testimonial of rogard on the go with him. For two hours he struggled desperately along the muddy highways toward the almshouse, and several times the two men were rolling together in the mud in the fight for the mastery. Berlen conquered, and at midnight he succeeded in dragging the sufferer more dead than alive to the poor's house door. The officials were aroused. Borden demanded entrance for the sick man, and fearing a refusal he denied that the man had smil pex. Subsequently he admitted the fac's and told his story. Borden then disappeared in the darkness, saying it was not safe for him to remain there as his presence might create a panic among the inmates. Heileblen was placed in the hospital for smallpex cases. By appearances he has been ill about ten days. His home is unknown. It is apparent that in his ravings he had trayelled a carsiderable distance.

in the First Ward to merrow night. A chicken thief was discovered in the hen bouse of Mr. Wm. Richards, residing on Fezette street, Saturday night. He made his escape, carrying with him an old rooster.

All the corporation officers were paid off to-

day by City Treasurer Harlow. Mr. R. T. Lucas will be urged by his friends before the next administration for the position of postmester of this city. A petition in circulation on the streets to day to that effect recoived a large number of signers.

As an evidence of the good done the city by the late 22d of February colebration, it may be stated that a gentleman who was drawn here by the display on that consion, purchased of Mesers. Peake & Nalls a bill of goods amounting to \$700 Other merchants report that they were greatly benefitied by the celebration.

The United States school ship Saratega left this city for Washington yesterday aftergoon. The commission to receive boys for the United States navy will continue its session in that city. To-day is put down in some of the almanacs as "Carnival Day." It is an ancient festival still chierved in Carholic countries with religious services pointing to the fact that Lent is near, when the use of meat must be dispensed with. The weather has observed the day, displaying all the variety of a Fourth of July parade-clouds, showers, sunshine, and a beautiful rainbow this afternoon.

The thoughtlessness of people is so great in regard to watchfulness against Colds, e.c., that were it not for the wonderful curative power of Dr. Ball's Cough Syrup we should shudder at the fate of such.

STEAM VS. MUSCLE,-Two things absolutely necessary to make perioot roasted coffee is uniformity of heat and regularity of motion; these can only be obtained by use of sicam. The opposite is clearly shown in hand roasted Coffees by its many imperfections. All choice grades of Coffees will swell when subjected to a uniform beat. McBurary's Steam Rossted Coffees are alway the choicest grades. Their duily increased sales is a good proof of superiority of their Steam Roasted Coffees over that roasted by the hand machine and muscle.
